

Our workshop gear will keep you moving

600A LEVER ACTION GREASE GUN

- 450g capacity
- Grease pressures of up to 12,000psi (828bar)
- Delivers up to 1.6g of grease per stroke
- 4 jaw coupler and flexible 30cm long extension
- Manufactured in Germany

660ANP TRIGGER ACTION GREASE GUN WITH CARRY CASE

- 450g capacity
- Grease pressures of up to 8,500psi (586bar)
- Delivers up to 1.1g of grease per stroke
- 4 jaw coupler and flexible 30cm long extension
- Manufactured in Germany

454110N OIL TRANSFER KIT WITH METER

- 3:1 ratio pump, 3m x 1/2" ID hydraulic hose & electronic resettable meter
- Flow rates of up to 12 L/min
- Air pressure range from 20psi to 140psi
- Air inlet: 1/4" BSP(f)
- Fluid outlet: 1/2" BSP(f)

SA400N AIR HOSE REEL

- Includes 15m of 12mm ID hybrid polymer hose
- Automatic and positive latching mechanism
- New hybrid polymer hose is more flexible, easier to handle and longer lasting
- Working pressure of 300psi (20bar)
- 1/2" BSPT(f) inlet & outlet

CR30050 EL SERIES 240V ELECTRIC CABLE REEL

- 20m in length
- Maximum 10amps
- Automatic spring rewind mechanism
- Plastic outer casing
- The ideal and safest way to store electric cable

424170 20KG GREASE KIT

- Delivery rates of up to 0.9 kg/min
- 55:1 ratio air motor develops grease pressures of up to 7,950psi (548bar)
- Heavy duty 3 jaw coupler ensures a tight and precise grease nipple connection
- Integral filter protects pump from foreign particle contamination

8828N2 20L GEAR OIL DRUM PUMP

- Downtube extension and extra Reike adaptor make the pump suitable for use with a variety of 20L drums available on the market
- Ideal pump for the transfer of engine, gear, diff and hydraulic oils
- Drainback nozzle holster ensures that excess oil ends up back in the drum

6603A BRAKE CLEANER SPRAYER

- Large filling opening
- Safety valve at 36psi (2.5bar) with depressurisation option
- Easy tool free maintenance
- Strong translucent bottle with level indicator
- Also suitable for degreaser, tyre shine, hydrocarbon-based solvents, lubricants, vegetable & animal oils

RAV305H.4WS RAVAGLIOLI SET OF 4 X 5,500kg WIRELESS MOBILE COLUMN LIFTS

- Wireless 2.4 GHZ communication among columns
- Each column has a lifting capacity of 5,500 kg
- Sets of 4, 6 and 8 columns can be configured
- Handles tyre diameters from 900mm to 1,200mm with a minimum run diameter of 580mm
- Each column powered by two 12V maintenance free 55A/h gel type batteries

RAV232NL RAVAGLIOLI SET OF 4 x 5,500kg MOBILE COLUMN LIFTS

- Large and solid base for maximum stability under load
- Lifting spindles in rolled steel with bronze main nut and safety nut
- Master column with a main control panel and slave column with a secondary control panel and emergency stop button
- New wireless models now available
- Also available RAV232NL-AF c/w adjustable forks

AAWAT8CCD ALEMLUBE AUTOMOTIVE COMMERCIAL VEHICLE WHEEL ALIGNER

- European technology
- Large 24" LCD screen is easy to read and analyse
- Infra red transmission between the sensors
- Four measuring heads with 8CCD Sensors 360° measuring
- Full customer database

G96N RAVAGLIOLI COMMERCIAL VEHICLE TYRE CHANGER

- Tyre changer for commercial vehicle wheels from 11" to 27"
- The operating dimensions of the rim clamping unit and of the head tool carriage allow the tyre changer to operate on a whole range of wheels, including super-single

GTL4.140RC RAVAGLIOLI TRUCK WHEEL BALANCER

- Versatile machine, designed for easy, fast & accurate balancing of commercial wheels
- Microprocessor controlled with self-calibration and self-diagnostics
- One single spin with low rotation speed provides all the values

ALEMLUBE AUTOMATIC LUBRICATION SYSTEMS KEEP YOU MOVING

Automatic lubrication systems reduce maintenance time by utilising small amounts of fresh lubricant that are added every hour of operation, ensuring that contaminants are kept well clear of bearings and other key components thanks to a collar of fresh grease. In this way, wear and tear is kept to an absolute minimum and mechanical components can achieve their maximum life. On top of that, equipment can be kept in production longer, saving precious maintenance resources for more important jobs.

ALEMLUBE FITS OUT THE COMPLETE TRUCK WORKSHOP

Alemlube has been successful in completing and commissioning large state of the art truck workshops, incorporating the best available automotive workshop equipment from the world's foremost manufacturers. Following extensive consultation with stake holders, the Alemlube team designs the equipment layout and network of reticulation pipework maximising the available space and resulting in a practical, functional and efficient working environment.

Combine first class equipment with Alemlube tank/gantry fabrication and the professional Alemlube team and the result for you is sure to be a benchmark in the transport industry for some considerable time.

Applies to the vast majority of Alemlube products unless stated otherwise
