Self Fusing Silicone Tape

Product Description

A self-fusing silicone all purpose repair tape made out of a specially formulated silicone rubber. Contains no adhesives; yet chemically bonds to itself upon contact. Self Fusing Silicone Tape provides an airtight, waterproof seal in seconds. Replaces duct tape and electrical tape.

Applications

Vehicle Repairs:

- Use to seal, insulate and stop vibration.
- Seal electrical connections
- Emergency fuel, radiator or water hose repairs,
- Insulate wiring
- Repair leaking pipes and damaged wires
- Use on connector wires and cables

Other suggested uses:

- Repairs garden hoses and vacuum hoses
- Seals appliance cords
- Wrap hand tools and grips.

Directions for Use

Stretch and wrap to create an airtight, waterproof seal. For more information see www.permatex.com
